

Bankstown Airport Projects

As a neighbour to Bankstown Airport, we would like to inform you there are several projects commencing adjacent to Marion Street. These projects will improve the experience, surroundings, and amenity within the Airport Precinct.

Tower Road Upgrade

The proposed works (subject to approvals) will upgrade Tower Road, the only north-south link within the Airport. The project will involve a complete reconstruction of Tower Road, an upgrade of key utility services and new dedicated parking areas.

Commencing June 2022 and to be completed in multiple stages over an 18-month period.

Airport Avenue Placemaking

The works will deliver placemaking, landscaping, wayfinding and infrastructure upgrades at Airport Avenue and adjacent airport-maintained streets (Avro Street, Miles Street, Desouter Street), along with streetscape improvements to sections of Marion Street.

Commencing May 2022 with a target completion by end of 2022.

New 430 Marion Street Industrial Precinct

The works (subject to approvals) will establish 430 Marion Street as a new industrial precinct on the corner of Marion Street and Birch Street. The precinct will comprise of four warehouses, and associated hardstand areas, car parking and landscaping.

Earthworks commencing March 2022 with target completion by end of 2022.
